

Job Vacancy

Marine & Mechanical Engineer

Job Vacancy within the Harbour Engineer's Department at the Port of Poole

Poole Harbour Commissioners (PHC) are responsible for Europe's largest natural harbour and as part of this operate one of the UK's leading Trust Ports featuring Ro-Ro ferry, liner, bulk cargo, cruise ship and marina activities. PHC are seeking to enhance and improve the Engineering department with the recruitment of a **Marine & Mechanical Engineer**.

The Role

PHC are seeking to recruit a Marine & Mechanical Engineer to undertake engineering services for the Port of Poole. The Engineer will report directly to the Workshop Manager having responsibility for the maintenance of PHC's fleet of Plant, Equipment and Vessels.

This is an exciting opportunity to join our team and build your career at the Port of Poole. You will be a key member of a team of professionals involved in maintaining Port assets that will make a real difference to our business and make the Port an even better place for our customers, stakeholders, and employees.

Your duties will include undertaking repair activities and maintenance procedures, with a focus at all times on health and safety. We are looking for someone who has proven experience in a maintenance role working with vessels, with excellent technical expertise and a can-do attitude. Alongside working on vessels duties will also include working on various Port assets such as cranes, tugmasters and forklifts.

Job Description Summary:

- To carry out under the general direction of the Workshop Management, the planned maintenance, repairs and inspection of the Ports fleet of plant, equipment and vessels.
- To attend to breakdowns of plant, equipment and vessels by:
 - Identifying the faults
 - Operate any available back up systems or equipment where appropriate
 - Carrying out repairs as required
- To take part in the call out roster system to provide adequate engineering cover on a 24/7 basis
- To carry out under the general direction of the Workshop Management other duties as may be required from time to time
- Any other requirements to keep the Port operational at all times

Required Qualifications / Attributes

- Completion of an Engineering Apprenticeship at NVQ L3 or equivalent working experience in a technical capacity
- Extensive experience and knowledge of working on commercial vessels
- A demonstrable knowledge & experience of working on mechanical plant and electrical installations with the ability to diagnose, repair, service and maintain Port assets
- The ability to make use of workshop equipment provided for the carrying out of duties
- The ability to work safely and adhere to safety risk assessments is essential
- Full UK Driving Licence

Working Hours:

- 8am – 5pm Monday – Friday
- 8am – 1pm Saturday

Benefits:

- A competitive package will be offered to the successful candidate.
- Contractual Company Sick Pay
- Twenty-five days holiday (plus 8 usual statutory bank holidays) – pro-rata for part-time employees
- Company Pension Scheme
- Opportunity to participate in the annual PHC discretionary and non-contractual bonus scheme, based on annual bonus and annual appraisal factors.

How to apply:

Please complete [this application form](#). Applications must be returned to gillianhill@phc.co.uk by: **Thursday 8th February 2024 at 5:00pm**.
